**Govt. P.G. College, Kotri, Mungeli**  
**Report on**  
**Academic Year 2021-22**

A one-day seminar was conducted by the Department of Commerce and Management under the aegis of IQAC, on the premise of Dr. C.V. Raman University, Kota, Bilaspur, C.G. in collaboration with Govt. P.G. College Kotri, Mungeli on the Topic: “Literature Review Through Research Rabbit”.

The keynote speaker of the program was Dr. Satyajeet Soni, Asst. Professor, Department of Commerce, Govt. P.G. College, Kotri, Mungeli. The venue of the seminar was Conference Hall, Dr C.V. Raman University, Kota, Bilaspur. The seminar was conducted in two sessions. The first part of the session focused on “The Place of Literature Review in Research” and the second part was focused on “How to Review Literature through Research Rabbit”.

Both the sessions featured a PowerPoint presentation and were thought to be enjoyable. Each concept covered in the first and second sessions was illustrated with examples, and each student inquiry received the appropriate response.

**Points covered in the first session: The place of Literature Review in Research**

- ✓ Bringing clarity and focus to your research problem
- ✓ Improving your research methodology
- ✓ Broadening your knowledge base in your research area
- ✓ Enabling you to contextualise your findings

Dr. Satyajeet Soni also covered topics like definitions, assumptions, limitations, and hypotheses; probability of success and significance of findings; how to conduct a review of the literature; some tips for conducting a review of the literature; suggestions for using a library; safety considerations when using a library; completion of the bibliography; and reporting a review of the literature and reporting tips. He goes on to explain that the research rabbit is a cutting-edge "citation-based literature mapping tool" that is accessible online. Its goal is to minimise the time reviewers spend looking for references when they begin to organise their essay, side project, or literature review.

Additionally, present during the meeting were the head of the department of commerce and management, the dean of the department, and all of the faculty members. In the interactive session, the speaker gave a thorough explanation and the students were invited to ask questions if they had any.

**Outcomes:** The purpose of the literature review in research, how to do a literature search, how to evaluate the chosen literature, how to create theoretical and conceptual frameworks, and how to produce a literature review were all topics covered in this seminar. It also included quite an amount of information about Research Rabbit.

*Literature Review through Research Rabbit*
