BRIEF REPORT OF THE SEMINAR

11.1 Introduction-One Day Seminar on the Present Utility of IPR and its Contribution to Educational Institutions was organized by the Department of Life Science, Dr. CV Raman University, Kargi Road Kota, Bilaspur, Chhattisgarh in association with Seth Phool Chand Agarwal Smriti College, Navapara, Rajim. The lecture was based on Intangible human inventions. Copyrights, patents, and trademarks are the main protections for intellectual property. It also covered additional categories of rights, such as those related to trade secrets, publicity, morality, and protection against unfair competition. Intellectual property can include creative works like music and literature as well as some discoveries, inventions, words, phrases, symbols, and designs. The basic goal of intellectual property law was to promote the creation of a wide range of intellectual commodities. The term "intellectual property rights" is a catch-all for the transfer of property rights via patents, copyrights, and trademarks. These property rights give the owner the freedom to have exclusive usage of the item for a set amount of time.
